About the Company:
Kessler Consulting, Inc. is seeking qualified solid waste and infrastructure project professionals to continue providing high quality consulting services to our clients. Excellent opportunity to grow with a top-tier firm providing a full range of solid waste consulting services for a diverse portfolio of clients across Florida and throughout the United States. Our areas of focus include all aspects of solid waste management, recycling, composting, zero waste and sustainable development projects.

Research Analyst
To fill our Research Analyst role, we are seeking professionals who have developed specialized expertise in specific areas of recycling and waste reduction, along with the ability to produce high-quality research documents. A research analyst may be responsible (under the direction of a project manager and/or project director) for portions of a project, coordinating research, planning tasks, and the work of researchers. Typically, research analysts are focused on developing and improving professional expertise toward becoming consultants.

Responsibilities:
• Performs and coordinates research and assigned tasks, including research in all areas of expertise, with emerging specialty in defined areas as required
• Writes and edits products that are accurate and of high quality with minimal technical and stylistic editing by senior people
• Meets with other professionals in task-oriented meetings
• Limited client contact (under the supervision of a project manager or a designated consultant)
• Provides technical leadership to the company in areas of special expertise

Preferred Education/Experience:
• Completed or in Progress BA in economics, business, engineering or related environmental field
• Proficient in Microsoft Office software (Outlook, Word, Excel, etc.)
• Proficient with use of analytical and research tools sourced from the internet and elsewhere
• Professional experience in Solid Waste Industry a plus
• Certifications in the following are a plus: SWANA, USGBC LEED, Institute for Sustainable Infrastructure, or other Sustainability Organizations

Additional Information:
Remote work is possible however preference will also be given to those able to live in the Tampa Bay region and work from the home office in Tampa.

KCI provides a quality benefit package for all in-house employees including health and dental insurance, paid vacation and sick leave, and paid holidays.
